Wednesday,
February 14, 6-7 pm
Program Room**

News

February is the shortest month, but definitely an important one. The lunar new year begins on February 10, ringing in the new Wood Dragon year. Valentine's Day is just around the corner. And it's a leap year!

Love is in the Air

While researching my ancestors, I sometimes find couples that have been married on or around holidays, such as Valentine's Day. It makes me wonder what their weddings were like and how they met. Do you have relatives who also were married or had life events in the month of February?

Leap Year

I've always been curious how people born on February 29th celebrate their birthdays during non-leap years. Anyone with ancestors who have leap year birthdays, or stories related to leap years?
