Next meeting: Wednesday, April 10, 6–7 pm Program Room

April To-Do's:

This month spend time looking at all the information you have in various databases or family tree programs/websites. I know that I'm not the best at keeping all my information updated when I find new records or information. And sometimes adding in more information will lead to new hints that you wouldn't find on your own.

Spring Cleaning

Winter is finally letting go and Spring is on its way. Flowers are sprouting and the sun is getting warmer. It's that time of year to do some spring cleaning, especially when it comes to genealogy research and records.

Spend some time looking at the research you've already done. Are you missing any information? Is there a way to consolidate your research and condense the paper records you might have?

There's no time like the present to dig back into old mysteries or black holes in your research. You never know what new records you might find.
